Debt service funds are used to record the receipt of SPLOST revenues and pay debt service and the shared portion with the City of Thomaston. Revenues exceeding those payments can be used for capital improvements and certain roadway maintenance. The forecast above represents the combined balances of the debt service funds and any remaining bond proceeds from issuance. The bond proceeds from the issuance of the 2022 Series Bonds has been spent on the construction and furnishment of the Justice Center.

Projected balances exclude current encumbrances. All of the remaining 2016 SPLOST is encumbered for Road Department tractor purchase. An additional \$45 thousand is encumbered in 2022 SPLOST for the tractor purchase.

Calculated Fund Balance at December 31, 2024      \$ 1,091,774

State law does not require balanced budgets for proprietary funds.

We do prepare budgets but on a modified accrual basis or "fund basis." Annual reporting requires full-accrual basis of accounting, which means the recognition of long-lived assets and long-term assets.

The budgeted revenues reflect those necessary to balance the budget. However, revenues should exceed expenses, resulting in a profit.

Budgeted capital outlays needs to be amended to cover the difference for the total \$1,029,537 contract cost for the Thurston well. Budget a transfer of approximately \$465,000 from the Waste Billing Services Fund.
