Reader's Guide

The following pages contain the County's proposed budgets for the fiscal year 2026. Budgets contained herein reflect all the County's governmental funds and proprietary funds. The Board is required by Georgia Law to approve balanced budgets annually for all governmental funds, except for capital project funds, grant funds, and proprietary funds. The County does prepare annual budgets for proprietary funds, however.

The County will hold public hearings on November 25th and December 9th.

This document is designed to take the reader through each fund, starting first with a summary of all governmental funds, then presentations and discussions of each fund, and presentations and discussions of each department within funds down to the account level.

Special Notes:

- In reviewing the total County budget information, please take note that there are five property tax-supported funds as mentioned in the introduction. These funds are the General Fund, Joint Projects Fund, E-911 Fund, Thomaston-Upson County Recreation Fund (Recreation Fund or Recreation), and Sprewell Bluff Recreation Area Fund (Sprewell Bluff Fund or Sprewell Bluff). The E-911 Fund, and the Recreation Fund receive funding via the Joint Projects Fund. Taxes levied via the Joint Projects District are transferred to those funds to the levels needed to balance the funds. The General Fund transfers funds to the Sprewell Bluff fund to balance the fund. Remaining funds are supported through various fees, fines, Sheriff confiscations, and sales tax dollars for (SPLOST & TSPLOST only).
- Please understand that this is a proposed budget. It is possible changes will be made to the budget, particularly within the General Fund before adoption. No material changes are anticipated; however, there could be minor changes resulting from possible missed items during the budgeting process or error corrections. The County will make every effort to identify changes. A fresh version of this proposed budget will be available online. Citizens may request further information, which we encourage. If so, please contact the County CFO or County Manager.
- Certain budgeted lines have been changed to improve budgeting and financial reporting in the future. Where you may see a large decrease in one line item, there will most likely be a large increase in another. This is most evident with general liability, property & casualty, and auto insurance.

Transmittal Letter

The annual budget serves as the foundation for Upson County's financial planning and control. All departments and agencies funded by Upson County are required to submit requests for appropriation to the County's Finance Department each year. The Board of Commissioners must hold public hearings on the proposed budget and adopt a final budget by December 31, for the following January 1. The annual budget is prepared at the fund (e.g., General) and department level (e.g., Planning and Zoning).

The proposed budget includes the FY 2026 budgets for all major governmental funds of the County, except the 2024 TSPLOST Fund and Grant Funds. Formal annual budgets for SPLOST and TSPLOST funds are generally not prepared. The County's primary source of funding for capital expenditures comes from the 2022 SPLOST and 2024 TSPLOST. Use of these funds is driven by the budgets included on ballots for voter approval and included in the intergovernmental agreements with the City of Thomaston. Annually, the County reports the use of our SPLOST and TSPLOST on its website, and SPLOST and TSPLOST expenditures are reported in the County's audited Annual Financial Report. Formal budgets are not prepared for Local Maintenance Improvement Grants (LMIG) projects annually. Our engineering firm estimates the costs for resurfacing and other road and bridge repair and improvements, and these costs are used in our submission to the Georgia Department of Transportation ("GDOT") for LMIG funding. Typically, TSPLOST and LMIG are used to jointly fund road and bridge projects.

For FY 2026, the County has proposed capital spending under the 2022 SPLOST Fund. See section 8.0.

Commissioner's and Manager's Budget Priorities

- Maintain a stable tax rate
- Propose a budget that can be funded with the FY 2025 M&O millage rate.
- Decrease dependence on property taxes.
- Reduce budgeted costs by eliminating any estimated historical budget over actual expenditures.
- Limit 2026 compensation increases to a maximum of the annual step increase of 1.75% and COLA of 1.0%.
- Budget vacancies at 50%.
- Position changes, such as promotions, must be detailed and provided in the proposed budget to the Board.
- Budgeted training expenditures are allowable but must be reasonable.
- Pursue and maximize to the extent possible alternative revenue sources, such as grants, state programs, and private funding.
- Achieve and maintain a stable Aa2 credit rating from Moody's by focusing on cost reduction.
- Sustain the current level of service.
- Seek efficiencies through the review of operating policies and the creation of new policies where necessary.
- Explore efficiencies through staff attrition, department reorganization, transfers, and public-private partnerships.
- No additional positions added for FY 2026.
- Do not budget vacant positions for longer than 9 months.
- Review fees and charges for services for sufficiency.

Operating Budgets

The FY 2026 operating budget for the County's Governmental Funds reflects an increase of 3.41%, or \$1.3 million, to \$38.3 million for FY 2026 over the FY 2025 budget of \$37.0million. The increase results from several factors: employee pay increases, increases in contractual services and goods, and increases in costs associated with intergovernmental and government agencies' support. Health insurance premiums increased during 2025, requiring an amendment to the FY 2025 budget. However, based on vacancies and employee elections regarding health care coverage, the actual budgeted for 2026 reflects a slight decline from that of 2025. Salaries were budgeted reflecting a 2.75% increase for all departments except those belonging to the Sheriff's Office: Sheriff (Patrol), School Resource Officers, Jail, and E-911. The Sheriff requested an 8.0% increase in salaries to both retain his existing force but to be more competitive for highly-qualified

applicants in the County's market space. The Sheriff agreed to apply increases in halves with a 4.0% increase effective January 1 and the other half, (4.0%), on July 1, 2026, which has a budgeted effect of 6.0% for the year. The FY 2026 budget reflects the 2.75% increase as of January 1.

It should be noted that the Upson-Lee School Board reimburses the County 75% of School Resource Officers' salaries and benefits, provides vehicles for the officers and covers the cost of fuel and maintenance for the vehicles. Their reimbursement is budgeted at \$424 thousand for FY 2026 against budgeted expenditures of \$584 thousand. It should also be noted that E-911 is a joint project with the City of Thomaston, meaning that 32% of the net expenditures of the fund (other forms of revenue less expenditures) are funded by the City.

When reviewing information regarding total governmental funds, two things need mentioning:

1. The main operating funds consist of the General Fund, Joint Projects Fund, E-911 Fund, Recreation Fund, and the Sprewell Bluff Fund. We consider these to be the main operating funds as all the County's basic services, except for those provided in our proprietary funds, are accounted for here. These are the only funds that contain personnel.
2. Total governmental funds include intergovernmental revenues and expenditures. These are simply transfers from one fund to another. These transfers are included for transparency reasons. Largely, these amounts offset one another, except for the debt service funds as funds are transferred to the relevant capital projects funds, which are not included in the County's budget. There are tables explaining these transfers in the Total Governmental Funds section 4.0.

General Fund

The General Fund's total expenditures for FY2026 increased by 4.15% to \$21.1 million compared to the previous year. Public Safety remained the largest expenditure category, accounting for 47.47% of the total at \$10 million, which is a 3.79% increase of \$365,373 from the prior year. General Government also saw a notable rise, increasing by 6.94% to \$4.9 million, representing 23.45% of total expenditures.

Judicial expenditures decreased by 3.81% to \$2.9 million, making up 13.84% of the total budget. Public Works continued to grow, rising 5.55% to \$1.6 million and representing 7.4% of the total. Housing and Development increased by 8.15% to \$897,720, accounting for 4.26% of expenditures. Health and Welfare experienced a modest increase of 2.13% to \$331,400, or 1.57% of the total.

Other Financing Uses showed a significant increase of 51.98%, rising to \$329,550 and representing 1.56% of the budget. Culture/Recreation expenditures slightly decreased by 0.32% to \$92,800, comprising 0.44% of the total. Overall, the budget reflects growth in most categories, with Judicial and Culture/Recreation being the only areas of decline.

Other Funds

Other funds will be discussed in greater detail in each fund section. However, a special note needs to be made regarding joint projects and joint projects funds.

Joint Projects

Since 2012, Upson County and the City of Thomaston have been working together through an intergovernmental agreement to provide important services to all citizens of the County. The intergovernmental agreement was revised with certain changes effective in 2023. The basic principle behind the agreement is to define the sharing of responsibilities for both funding and management of joint projects. The basic tenants of the agreement set forth a funding ratio for funding that is determined annually based on the net digests for joint projects between the County and City and which governing body is to manage each joint project. Generally, the sharing ratio since 2023 has been approximately 68% County and 32% City of net expenditures for each joint project (net expenditures are expenditures net of other income sources besides property taxes), and the County is to manage most of all the joint projects. The major joint projects are: Recreation, E-911, Senior Center and Archives. Under the agreement, certain expenditures are shared equally — those involving common use areas.

Millage Rates

The following table reflects budgeted millage rates for FY 2026:

Millage Rates	2025	Budgeted 2026	Change
M&O	9.46	9.46	0.00
Unincorp	.89	1.00	0.11
Joint Projects	2.26	2.58	0.32
Total	12.63	13.04	0.43
2026 Net Digest	2025	Forecasted	Change
M&O	\$ 1,025,495,333	\$ 1,076,770,100	\$ 51,274,767
Unincorp	\$ 759,722,342	\$ 797,708,459	\$ 37,986,117
Joint Projects	\$ 759,722,342	\$ 797,708,459	\$ 37,986,117

Note: There is a 5% growth rate assumed in the net digests of each taxing district, which is a reasonable assumption given past years' growth rates.

The increase in the Joint Projects millage stems primarily from a decline in revenues, mostly a decline in revenues for the Senior Center over the past few years. Part of this decline is related to less sales revenue from meals sold to Lamar County. Lamar County no longer uses the County for their kitchen. However, the reduction in food supplies related to losing Lamar County has been offset significantly by the continued rise in food costs. We still serve as a central kitchen for Butts and Pike counties. Annually, staff prepares budgets for Senior Center meal preparation costs. Those budgets become the basis for the fees the County charges. There is profit built into the fees charged. Additionally, revenues (grant funds, State and Federal) that are distributed from the Three Rivers Commission have declined moderately from prior years when additional funds were available from Federal COVID relief. Each County under the Commission prepares annual budgets. These budgets form the basis for how grant funds are distributed to each County. Annually, the Commission audits the revenues and expenditures of each County.

Acknowledgments

Preparation of this budget and report would not have been possible without the efficient and dedicated services of Upson County's Chief Financial Officer, Allen Salter, and Accounting Manager, Lacy Crain. I would like to thank all department members and the Sheriff for their patience and diligence in bringing the many parts of the County's total budget

together. Credit is also due to the Upson County Board of Commissioners for their unfailing support for maintaining the highest standards of professionalism in the management of Upson County's finances.

County Manager
Upson County Board of Commissioners

Budgeting Process

Instructions to all department heads, including elected officials, were given based on guidance transmitted from the Chief Financial Officer. Timelines were established for each phase of the budgeting process. The process required county officials to justify any requests for increases in staffing or significant changes to specific line items from the previous year. Department heads would submit their budgets to the finance staff so that all budget requests could be accumulated for each fund. Department heads met with the County Manager, Chief Financial Officer and the Accounting Manager to discuss their budgets in detail. Any modifications to their budgets were made and redistributed back to the county officials.

At the October 2025 work session, a high-level overview of all budgets was presented to the Board of Commissioners for discussion. The Board addressed key areas of concern relating to staffing, rising cost of health care premiums, and pay increases for staff.

On November 5th, a selected group of department heads along with the Sheriff presented their budgets to the Board. During the departmental budget hearings, department heads explained their respective budgets. Budgets were reviewed at the line-item level. After the hearings, the Board discussed with staff several issues and gave further direction on pay increases for 2026. Finance staff made additional adjustments to the budgets as a result.

Basis of Budgeting

All Governmental Funds are budgeted on a fund basis. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. All governmental funds are accounted for using a current financial resource measurement focus. The modified accrual basis of accounting is used by all governmental fund types.

The modified accrual basis of accounting is a blend of the cash basis of accounting and accrual basis of accounting.

Key Features

- **Revenue Recognition:** Revenues are recognized when they are both measurable and available. This means that the revenue can be reasonably estimated and is expected to be collected within the current fiscal period or shortly thereafter.
- **Expenditure Recognition:** Expenditures are recorded when the related liability is incurred. Unlike full accrual accounting, capital outlays for fixed assets are expensed immediately rather than being capitalized.

The County's enterprise funds, Water Services Fund and Waste Billing Services Fund are reported annually in the County's audited financial statements using the economic resources measurement focus and the accrual basis of accounting. However, for budgeting purposes, the County uses the modified accrual basis of accounting. While Georgia State law does not require the Board to approve an annual budget for these types of funds, the County prepares these budgets as a basis for internal management of those services.

Demographics

Upson County takes into consideration County demographics when contemplating budget increases, particularly with respect to salaries. Our goal is to provide reasonable budgets that can be funded with little to no millage increases. The past several years have posed challenges given rising costs in virtually every area. We have experienced higher costs for almost all services provided to us and higher costs for supplies. There is very little discretionary spending in our budgets.

Funding Sources Overview

Taxes comprise the largest component of the County's funding sources for all funds, followed by Intergovernmental Revenue, and Charges for Services. The following chart excludes interfund transfers in as a source of funds as they do not represent external sources of funds. Funding sources are for all budgeted Governmental Funds.

Taxes

There are numerous types of taxes the County collects, with property taxes constituting the largest. The pie chart below shows the various types of taxes the County collects. Funding sources are for all budgeted Governmental Funds.

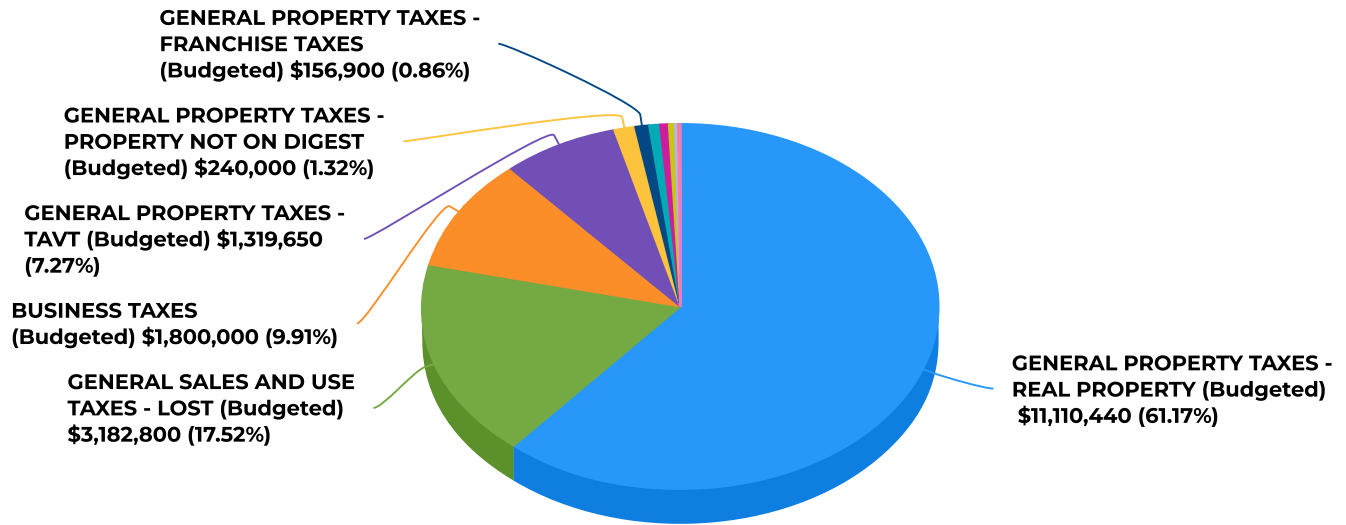

Tax Revenues by Type All Governmental Funds

General Fund Taxes

The chart below emphasizes the General Fund as it is our largest operating fund. Total property taxes incorporate those levied through the Unincorporated Services Fund.

General Fund Taxes

Governmental Funds Summary

Governmental Funds consist of the General Fund, Special Revenue Funds, Capital Projects Funds, Grant Funds, and Debt Service Funds. Georgia Law requires governing bodies to approve an annual budget for the General Funds, Special Revenue Funds, and Debt Service Funds. Annually, the Upson County Board of Commissioners adopts operating budgets for the General Fund, all Special Revenue Funds, and Debt Service Funds. The County's budgeted funds are depicted in the following pie chart. Interfund transfers have been eliminated.

There are five tax-supported funds within the County's Governmental Funds. There are three taxing districts in Upson County. The following table shows the taxing districts and funds they support:

Taxing District	Fund
County M&O	General Fund & Sprewell Bluff Fund
Unincorporated Services (For citizens in unincorporated areas of the County)	General Fund (Services such as Roads, Planning & Zoning, Animal Control)
Joint Projects (For citizens in unincorporated areas of the County)	Joint Projects Fund, E-911 Fund, & Recreation Fund

We have included a schedule of interfund transfers between funds in the Total Governmental Fund Summary section 4.0 under the Revenues by Major Classification and Expenditures by Major Classification. Interfund transfers are not revenues or expenditures under GAAP but are shown in the annual financial statements in a separate section of the Statement of Revenues, Expenditures and Changes in Fund Balances. For budget presentations, they are regarded as revenues and expenditures and largely offset each other.

Although not required by Law, the County also adopts budgets for its Enterprise Funds, Water Services and Waste Billing. Further discussion on these budgets is under the Basis of Budgeting.

Summary

The 2025 year-to-date actual results were not available at the time of preparing this report. The 2024 actual results are presented. All budgeted revenues and expenditures for all Governmental Funds should be balanced.

In the 2026 budget, total governmental fund expenditures are budgeted at \$38.3 million, reflecting a 3.41% increase from the 2025 budgeted amount of \$37.1 million. Similarly, total governmental fund revenues are also budgeted at \$38.3 million, marking a 3.41% increase compared to the previous year's budgeted revenue of \$37.1 million.

This parallel increase in both revenues and expenditures indicates a balanced budget approach for 2026, with both categories rising by the same percentage from the prior period. The budgeted amounts for revenues and expenditures are equal in 2026, maintaining alignment between expected income and planned spending.

Total Revenues Less Expenditures	\$4,173,847	-\$1	-	\$1	-100.00%

In FY 2024, total revenues exceeded expenditures by \$4.2 million. This resulted from the excess of sales taxes collected through the 2022 and 2024 SPLOST and TSPLOST, respectively, over the budgeted amount transferred out to capital projects funds. Excess revenues remain in each of these funds reserves or fund balances until needed for capital spending.

For FY 2026, total governmental fund expenditures increased \$1.3 million, or 3.41% over budgeted FY 2025 expenditures. The primary factors for the increase include an increase in personnel services and employee benefits of \$537 thousand, or 3.43% and increases in Purchased Contracted Services of \$146 thousand, or 3.05%, in Capital Outlays of \$115 thousand, or 113.57%, in Other Costs of \$343 thousand, or 6.25%, and in Other Financing Uses of \$111 thousand, or 2.54%.

The increase in Personnel Services and Employee Benefits results from pay increases as discussed in the introduction. Purchased contracted services reflect increases primarily from costs associated with contracts to maintain County facilities and grounds. Other costs are primarily expenditures paid to other governments and agencies. These costs are best explained in each fund as payments of sales tax dollars from SPLOST and TSPLOST to the City of Thomaston are classified in this category. Capital Outlays are largely a result of the use of funds from the Jail Construction Fund for new furnishings and roof repairs.

Revenues by Fund

The total governmental fund revenue for FY2026 is \$38.3 million, reflecting a 3.41% increase from FY2025's \$37.1 million. The General Fund remains the largest revenue source at \$21.1 million, accounting for 54.99% of the total and increasing by \$839,360 or 4.15% compared to the previous year.

The Debt Service Fund 2024 Series holds the second-largest share at \$5.2 million, representing 13.63% of total revenue, with a modest increase of \$59,930 or 1.16%. The Debt Service Fund 2022 Series is third, contributing \$4.8 million or 12.48% of total revenue, with a slight increase of \$16,020 or 0.34% from FY2025.

The Joint Projects Fund increased by \$113,075 or 4.47% to \$2.6 million, making up 6.9% of total revenue. The E-911 Fund also grew by \$60,201 or 5.67% to \$1.1 million, representing 2.93% of the total. The Unincorporated Services Fund rose by \$43,466 or 5.76% to \$797,710, now 2.08% of total revenue.

The Thomaston-Upson County Recreation Fund experienced a slight decrease of \$10,164 or 0.59%, totaling \$1.7 million and comprising 4.48% of the total. The Sprewell Bluff Recreation Area Fund increased by \$26,276 or 5.13% to \$538,810, accounting for 1.41% of total revenue.

Notably, the Jail Construction Fund saw a significant increase of \$113,700 or 145.77%, rising to \$191,700 and representing 0.5% of the total. The Sheriff Program Fund remained steady at \$160,000, maintaining 0.42% of total revenue with no change from the previous year.

Other smaller funds such as the Drug Abuse Treatment Fund showed a minor increase of \$250 or 1.39% to \$18,250. Overall, the FY2026 budget reflects moderate growth across most major funds, with the Jail Construction Fund showing the most substantial percentage increase.

FY26 Revenues by Fund

The Fiscal Year Revenue by Fund for the Total Governmental Fund Summary includes the GENERAL FUND, which accounts for \$21.1 million or 54.99% of the total. The DEBT SERVICE FUND 2024 SERIES contributes \$5.2 million, representing 13.63%, while the DEBT SERVICE FUND 2022 SERIES provides \$4.8 million, or 12.48%. The JOINT PROJECTS FUND adds \$2.6 million, making up 6.9% of the revenue.

Additional funds include the THOMASTON-UPSON CO.RECREATION FUND with \$1.7 million (4.48%), the E-911 fund at \$1.1 million (2.93%), and the UNINCORPORATED SERVICES FUND contributing \$797,710, which is 2.08%. General Fund

The General Fund is the largest of the County's three tax-supported funds. County maintenance and operations or M&O activities are recorded in the General Fund as well as services for residents living in unincorporated areas of Upson County.

The General Fund comprises 34 departments. Departments are like cost centers. The fund, department, and account structure follows the Georgia Chart of Accounts system.

A department represents a specific area of public service or administration. Each department is responsible for managing particular functions and services. Not all departments have staff. Several departments represent costs of certain services provided, typically to outside agencies such as the "Public Health Administration." The expenditures budgeted there reflect the County's funding to the County's Department of Public Health (Health Department).

Comprehensive Fund Summary

The FY2026 budget is \$21.2 million, an increase of \$839,360, or 4.64%, compared to the previous year's budget of \$20.2 million. While the budget increased by 4.64% in FY2026, this growth is slightly lower than the 5.83% increase observed from FY 2024 to FY2025.

JOINT PROJECTS FUND

Important governmental services such as public safety, health and welfare and culture and recreation are provided through Joint Projects with the City of Thomaston. Joint Projects are managed and funded according to the Joint Projects Agreement. The County and the City both have separate Joint Projects taxing districts. Funding of the Joint Projects is based upon the net tax digest for Joint Projects. The County and the City's share is based upon a ratio of each government's relative portion of the Joint Projects Tax digest. Generally, the funding ratio each year approximates a 68% to 32% split County and City, respectively.

The Joint Projects Fund consists of several departments. The separate taxing district, Joint Projects, funds the County's portion of the net expenditures in this fund and the E-911 and Recreation Fund. Funds needed for the E-911 Fund and the Recreation Fund are transferred from the Joint Projects Fund to each of those separate funds. All three of these funds are used to account for all the joint projects with the City of Thomaston. The sharing ratio for joint projects is typically 68% to 32%, County and City, respectively.

Revenues by Major Classification

In FY2026, the Joint Projects Fund's total revenue increased by 4.47% to \$2.6 million compared to the previous year. Taxes remained the largest revenue source, rising by \$419,955 or 24.98% to \$2.1 million, which now represents 79.45% of the total revenue, up from 66.41% in the prior year.

Intergovernmental revenues decreased by \$64,880 or 11.5%, totaling \$499,420 and accounting for 18.88% of the total, down from 22.29%. Charges for services saw a significant increase of \$11,100 or 158.57%, reaching \$18,100 and making up 0.68% of the total revenue, up from 0.28% previously. Intergovernmental Revenues consist of funding from the City of Thomaston, Three Rivers Regional Commission funding, and EMA grants.

Contributions and donations remained steady at \$16,000, representing 0.61% of the total revenue. Investment income declined by \$3,100 or 23.66% to \$10,000, now 0.38% of the total. Other financing sources dropped entirely by \$250,000, falling to zero and no longer contributing to the revenue mix. Miscellaneous revenue remained at zero.

FY26 Revenues by Major Classification

For the JOINT PROJECTS FUND, the Fiscal Year Revenue by Major Classification is primarily composed of TAXES, which amount to \$2.1 million and represent 79.45% of the total revenue. "PUBLIC BUILDINGS" was a new department added this year to the budget for common area expenditures of jointly-owned facilities between the County and the City of Thomaston that are shared equally. The majority of these costs are associated with the main building of the entire government complex. These costs are generally shared equally with the City of Thomaston.

E-911

Upson County Emergency 911 (E-911) is a vital part of the County's response and disaster preparedness system. E-911 Fund Revenues consist of both tax revenues levied by the City and County through the Joint Projects taxing district and user fees charged for landline telephones and wireless phones that are collected by the State's Department of Revenue for all counties and remitted to each county monthly.

For 2026, there are planned capital improvements to the administrative offices of the jail and roofing repairs. These improvements will be made from the existing fund balance of the fund and other budgeted revenues. The planned use of the existing fund balance is budgeted as Miscellaneous Revenue.

Revenues by Major Classification

In FY2026, the total revenue for the Jail Construction Fund increased significantly to \$191,700, representing a 145.77% rise from the previous year's total of \$78,000. The largest revenue source shifted to Miscellaneous Revenue, which rose dramatically to \$141,700, accounting for 73.92% of the total budget. This category experienced the most substantial increase compared to the prior year, where it was \$0, marking a 100% decrease reversal.

Fines and Forfeitures, previously the largest category at \$54,000 and 69.23% of the total in FY2025, decreased by \$14,000 to \$40,000 in FY2026, now representing 20.87% of the total revenue. Investment Income also declined significantly, dropping from \$24,000 (30.77% of total) in FY2025 to \$10,000 (5.22% of total) in FY2026, a decrease of \$14,000 or 58.33%.

Overall, the FY2026 budget reflects a major increase in total revenue driven primarily by the surge in Miscellaneous Revenue, while both Fines and Forfeitures and Investment Income saw notable decreases in both dollar amounts and their shares of the total revenue.

DEBT SERVICE FUND 2024 SERIES

The Debt Service Fund 2024 Series is used to service the debt associated with the 2024 General Obligation Transportation Sales Tax Bonds, Series 2024 bonds issued on August 9, 2024. Transportation Special Local Option Sales Taxes ("TSPLOST") collected annually are recorded in this fund. A portion of these sales taxes is used to service the \$9.0 million in debt issued. A portion of these sales taxes are also distributed to the City of Thomaston according to the intergovernmental agreement between the County and the City as a part of the 2024 TSPLOST referendum approved by the voters of Upson County. Remaining funds after debt service and distributions to the City can be used for road and bridge maintenance and repairs for County roads and streets. Each year the County budgets a transfer from this fund to the 2024 TSPLOST Capital Projects Fund.

DEBT SERVICE FUND 2022 SERIES

The Debt Service Fund 2022 Series is used to service the debt associated with the 2022 Series Revenue Bonds. The 2022 Series bonds were issued to fund the construction of a new Justice Center. The amount of the issue was \$21.0 million. The bond issue was structured such that repayments of the bonds are to come from the 2022 Special Local Option Sales Tax ("SPLOST") and future renewals of SPLOST. Sales tax revenues from the 2022 SPLOST are recorded in this fund. Annual debt service is paid from this fund, and a portion of the sales taxes collected are distributed to the City of Thomaston according to the intergovernmental agreement between the County and the City as a part of the 2022 SPLOST referendum approved by the voters of Upson County. Remaining funds after debt service and distributions to the City can be used for capital projects according to the intergovernmental agreement and for purposes listed on the ballot that voters approved. Each year the County budgets a transfer from this fund to the 2022 SPLOST Capital Projects Fund.

Proprietary Funds - Water Fund

The Water Fund accounts for County provided water services to unincorporated residents of Upson. The Fund is a proprietary, self-supporting fund. No property taxes are used to support its activities. The County charges various fees for services with the largest being the monthly water service. The County's water and sewer system services consist of approximately 2,300 and 500 customers, respectively. The water and sewer system consists of three water tanks, approximately 482 thousand feet of water lines, and approximately 46 thousand feet of sewer lines. Solid waste services are provided to the residents of the unincorporated areas of Upson County through a contract with GFL Environmental Inc. The County does purchase water from the City of Thomaston for certain locations in the County where County wells do not exist.

Water Fund for the 2026 budget year, total budgeted expenditures are \$2 million, representing a 33.35% decrease from the previous year's budgeted expenditures of \$3.1 million. Budgeted revenues for 2026 are \$2.1 million, which is 32.61% lower than the prior year's budgeted revenues of \$3.1 million.

The FY 2025 budget included \$1.1 million for capital outlays related to the Thurston Well Project. To support funding of the project, the County budgeted a transfer from the Waste Billing Services Fund into the Water Fund. Additionally, we budgeted the use of existing fund balance of \$393 thousand to balance the fund.

As mentioned in Section 3.2, Basis of Budgeting, we use the modified cash basis for budget purpose to assist with internal management purposes. The table above does not reflect the full accrual method as reported in our annual financial report. We used terms like "fund balance" when describing what would be referred to as "net position" in the annual

financial report. Additionally, net position comprises both short-term assets and liabilities and long-term assets and liabilities, such as buildings and debt. Fund financial statements do not report long-term assets or liabilities.

Revenues by Major Classification

In FY2026, the Water Fund's total revenue is budgeted at \$2.1 million, representing a 32.61% decrease from the previous year's total of \$3.1 million. The largest revenue category remains Charges for Services, accounting for 97.01% of the total at \$2 million, which is a decrease of \$30,645 or 1.51% from the prior year.

Other categories experienced significant declines. Other Financing Sources and Miscellaneous Revenue, which previously contributed \$550,000 (18.03%) and \$393,500 (12.9%) respectively, are both reduced to zero, reflecting 100% decreases. Investment Income also decreased substantially by \$20,150 or 40.3%, falling to \$29,850 and representing 1.45% of total revenue.

Charges for Services/Other Fees slightly decreased by \$450 or 1.41% to \$31,550, making up 1.53% of the total revenue. Overall, the FY2026 budget shows a marked reduction in total revenue, primarily driven by the elimination of Other Financing Sources and Miscellaneous Revenue, alongside moderate decreases in the remaining categories.

FY26 Revenues by Major Classification

For the Water Fund's Fiscal Year Revenue by Major Classification, Charges for Services account for the majority with \$2 million, representing 97.01% of the total revenue. Charges for Services/Other Fees contribute \$31,550, which is 1.53% of the revenue. Investment Income adds \$29,850, making up 1.45% of the total revenue.

Waste Billing Services Fund

The County provides solid waste services to residents in the unincorporated areas of the County. The County provides these services through GFL Environmental, an independent solid waste contractor. The County averages approximately 6,000 customers. The fund's primary revenues come from fees charged on a per-can basis for each household.

Summary

In the 2026 budget for the Waste Billing Services Fund, both expenditures and revenues are budgeted at \$1.6 million, reflecting a decrease of 25.57% and 25.55% respectively from the previous year's budgeted amounts of \$2.1 million. This parallel reduction in both revenues and expenditures indicates a consistent adjustment in the fund's financial planning compared to 2025.

Capital Budgets

The County has not regularly approved capital budgets. The Board approved a five-year capital plan in 2023. The Capital Plan, along with the intergovernmental agreement with the City of Thomaston on the use of SPLOST funds, serves as a basis for capital planning and use of funds. The budget included herein includes projects that are currently planned and to be funded by the 2022 SPLOST Fund. Revenues for the 2022 SPLOST fund consist of transfers from the Debt Service Fund 2022 Series. The budgeted transfer for 2026 is \$1.6 million. Revenues exceeding expenditures in any year are maintained in fund balance for use in subsequent years.

Capital Budget 2026

These capital expenditures would all be funded by the 2022 SPLOST. Recreation, Archives and Airport are all joint projects. Therefore, the County's share would be 68% of the total cost.
